

## Relay Training Plan 3 days/week for 16 weeks

Prepare for your training by building on your base level of fitness: First, buy great-fitting running shoes. Then, start walking, jogging, or running 20-60 minutes at least 3 days per week. Next, find ways you can cross-train (see Legend below for examples). The best way to 'stick with it' is to find your partner or running club to train with!  
Warm up before your run with dynamic exercises and be sure to stretch afterwards. Happy Training - and have a great relay race!

### Legend

**Run/Walk** Whether you run or walk, emphasize the importance of accomplishing the distance - pace is not as important on these days.

**XT** Cross training can be biking, elliptical, rowing, swimming, stairclimber, yoga/pilates class, plyometrics... anything EXCEPT running!

**Strength** Variable resistance machines, free weights, dumbbells, Bosu balls, etc.

**Core** Exercise designed to working the abdominal and low back muscles (sit ups, planks etc). Yoga/pilates classes are excellent for engaging core muscle work.

**Tempo** Run 30-45 seconds faster per mile than your race pace goal (ie, if your goal is 9 min/mi, run an 8:30 min/mi or 8:15 min/mi as your tempo pace).

**Neg Split** Run the second half of the mileage faster than the first half. Negative splits improve strength, endurance and speed for your final kick.

**Massage** Full head-to-toe massage.

**LSD** Long Slow Distance: the goal of LSD runs are to log time on your feet. Go slow and take walk breaks, if needed.

**Back-down** Mileage decrease from the previous week will allow time for recovery.

**Hills** Choose a route that has some hills to increase your stamina.
